## Work History

August 2018 -  
Current

### Associate Consultant - Regulatory Compliance

Cerner Corporation, Kansas City, Missouri

- Creates trusting relationships with clients and project teams through the lifecycle of 2015 CEHRT, Summary of Care/Direct, and Data Analytics projects.
- Effectively supports and leads establishing working relationships with key opinion leaders remotely over the lifetime of a project.
- Facilitates discussions around design decisions and recommends efficient workflows.
- Builds and validates software through Cerner's millennium database on both 2015 and 2018 code levels.
- Juggles multiple multi-domain clients at once which requires exceptional organization and complex thinking.
- Consults on troubleshooting system issues and back end build tools.
- Instructs clients on how to maintain and change the domain build after a project is complete.
- Forms dashboards using Power BI to represent reports and ensure clients are meeting their thresholds on the regulatory measurements.

March 2018 -  
August 2018

### Academy Consultant

Cerner Corporation, Kansas City, Missouri

- Attended Cerner Consulting Academy to learn the overview of Cerner's millennium applications, build, and best consulting practices.
- Assessed the impact of emerging technology and system upgrades.
- Provided elbow support at multiple go-lives covering a wide range of millennium applications and hospital units.
- Learned to troubleshoot and problem solve in the fast-paced setting of a hospital.
